[*]Corresponding author: Jiabei Liu; jxl2043@student.bham.ac.uk

Target journal: International Journal of Pavement Engineering

Article type: Research article

Keywords: pavement screening; inertial sensing; acquisition grouping; model selection; performance estimation

Author contributions

Mingyang Li: Methodology, Investigation, Writing—original draft. Jiabei Liu: Software, Writing—review and editing. Jiayue Gao: Visualisation, Validation.

Funding

This research received no specific grant from any funding agency in the public, commercial or not-for-profit sectors.

Disclosure statement

The authors report no competing interests.
